Core Values

Aspirant follows its core values diligently

Doing what is right for portfolio companies is fundamental to Aspirant's approach

Contribution to Society

We aim to contribute to society by pursuing sustainable growth and improvement for our portfolio companies as well as providing competitive returns to our investors consistently. By doing so, we aspire to become a globally respected private equity firm.

Passion

With strong passion, we will work tirelessly and find creative solutions to achieve our goals

Fairness

We act with self-discipline to uphold **honesty and integrity**. With a strong focus on fairness, we will prioritize the interest of various stakeholders of our portfolio companies, which in turn should ultimately benefit the shareholders

Execution

We will act decisively to transform our portfolio companies to **build sustainable growth**. We are **accountable and committed to our results**.

Learning

We constantly learn with humility and strive for progress and growth by reflecting on our results

Investment Strategy - Targets

- Targeting medium-sized companies with solid fundamentals but underperforming
- Improving operational efficiency and accelerating growth through a hands-on approach
- Seconding team members from a dedicated operations team when appropriate
- Deep value investor with the differentiating ability to undertake complex transactions with limited competition

Deal Types

Business Succession

Significant track record of fostering deep relationships with aging business owners facing succession challenges

Corporate Carve-Out

Opportunities for corporate carve-outs as Japanese conglomerates divest non-core business units

Turnarounds / Special Situation

Deep turnaround expertise among team, with differentiated ability to undertake complex deals

Sectors

Business Services

B2B businesses, including outsourcing and B2B software, that benefit from Japanese macro trend of declining population

Industrial Technology

Manufacturing businesses built on solid technology, with room for management and operational improvement

Consumer

B2C businesses with established brands or unique capabilities; healthcare companies benefitting from an aging society

Target Investments

Equity Investment

Typically ¥3 billion - ¥10 billion

Enterprise Value

Typically ¥7 billion - ¥50 billion¹

Gross Returns

Targeting 2.5x multiple, 25% IRR²

- Including co-investments and borrowings.
- 2. Past investment performance cannot be relied upon as an indicator of future performance. There can be no guarantees that target returns or objectives presented herein will be achieved.

Operational Improvement: Overall Framework

Aspirant focuses on four key themes to improve and support the growth of portfolio companies:

701 Team Building

Create mutual trust and consensus with key employees and management teams

02 Metrics
Grasp im

Grasp important KPIs, set up infrastructure for visualization, and implement frequent monitoring

03 Strategy

Focus on and set up common goals and milestones with employees

Quick Wins

Identify "low hanging fruit" for quick win initiatives to create early successes

Involvement can vary depending on the needs of the portfolio company and will adjust over time:

100 Day Plan

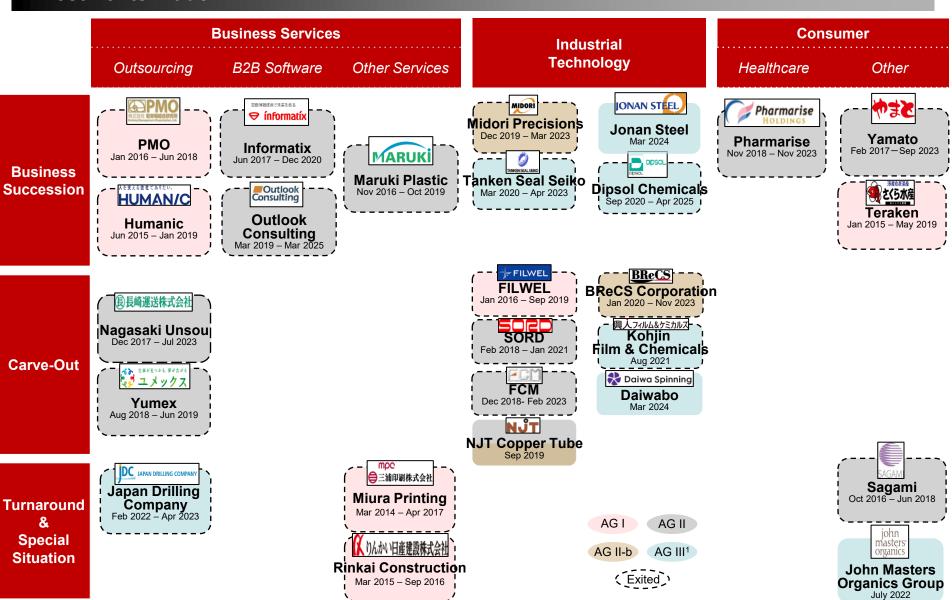

- Initial 3-6 months spent setting up an infrastructure for management/monitoring
- Operations team members work on site at portfolio companies on a full-time or semi-full time basis

Execution & Monitoring

- Progress of the business plan is monitored on a weekly and monthly basis
- Existing management remains an external hire or one of Aspirant's Operations team members will step in as the interim leadership

Company Backgrounds

Industrial Revitalization Corporation of Japan ("IRCJ")

IRCJ

Based on the Industrial Revitalization Corporation Act ("the act"), the IRCJ was established on April 16, 2003 and began operations on May 8, 2003. Since then the IRCJ has made decisions to support 41 corporate groups (supported companies) and provided them with support for business revitalization. On March 2, 2007 the IRCJ made the final exit decision for the final supported company, and subsequently sold the equity it held in that company. As this signified the full completion of its business operations as prescribed in Article 19, Clause 1 of the act, on March 15, 2007 the IRCJ disbanded on completion of its operations, based on Article 43 of the act.

Enterprise Turnaround Initiative Corporation ("ETIC")

ETIC

The Enterprise Turnaround Initiative Corporation of Japan, or ETIC-J, is a Japanese incorporated company, 50 percent owned by the Japanese government and the rest by about 130 private enterprises, which was established in 2009 under the "Enterprise Turnaround Initiative Corporation Law," to support the turnaround of the small and medium-sized corporations (with the one exception of Japan Airlines) that have found themselves in difficulties, in spite of some useful management capabilities. It continues the role of the Industrial Revitalization Corporation of Japan or IRCJ, that had existed from 2003 to 2007, under the same law.

Ministry of Economy, Trade and Industry ("METI")

The Ministry of Economy, Trade and Industry (経済産業省 Keizai-sangyō-shō) or METI, is a ministry of the Government of Japan. It was created by the 2001 Central Government Reform when the Ministry of International Trade and Industry merged with agencies from other ministries related to economic activities, such as the Economic Planning Agency. METI has jurisdiction over a broad policy area, containing Japan's industrial/trade policies, energy security, control of arms exports, "Cool Japan," etc.
